Phil,

Let's plan on meeting next week. I'm gonna need your help in reviewing all the historical data that this state had Exxon Mobile and Helena Chemical do and figuring out if you think we have quality data that can be used during our RI/FS. Attached this the last document regarding the work that the state wanted the RPs to do but was not implemented.

Sincerely,

Interesting. What is our take on this. I never saw any of the documents they refer to.
